

THEY WERE RUNDOWN

How often we hear it said of a man or woman that "they were rundown in health" which accounts for their present sickness. For that reason it is important that when you find you tire easily, when your nerves are troublesome or your work is irksome, you should strengthen your system immediately with the blood-enriching, tissue-building food in Scott's Emulsion which contains pure Norwegian cod liver oil and is free from alcohol.

NEW PROJECT OF SCHOOL GARDENS IS INTRODUCED

Food Commission Urges Agents to Get People Interested in Contests for Children

In a letter from J. F. Child, assistant executive officer of the territorial food commission, to the various county agents, the people of all the islands of the group are urged to encourage home and school gardens by adopting the plan of the Maui County Fair and Racing association and the Alexander settlement, which has offered trips to Honolulu as first prizes in a garden contest among school children.

The letter urges the agents to cooperate with the vocational instructors in promoting school and children's gardens on all the islands. Already the residents in some of the districts have offered prizes for the best gardens and the quality of produce grown. The contest by the Maui county fair has been divided into six districts, and the first prize in each district for the best garden is a trip to Honolulu. Each garden must be 100 feet square and not less than three nor more than six varieties of vegetables must be grown. Special prizes consist of a choice of vegetables offered by Maui merchants.

The trip of the winners to Honolulu will be in the nature of an educational project and the youngsters will visit the various manufacturing plants, the Pail, the museum, the Outrigger club and other places of interest. A local concern has offered to furnish automobiles to give the winners a trip around the island.

Mr. Child's letter urges the county agents to try to interest the people of the other islands in a similar contest. He believes the contests would be an impetus for better and bigger school and home gardens.

ROAD COMMITTEE PROBING CHARGES OF MANOAITES

The roads committee's report on the investigation made on the Manoai road work regarding the alleged discrepancy in the amount of asphaltum used on the project and the amount called for in the contract will be the chief item of business at the meeting of the board of supervisors tomorrow night.

The committee is busy today securing the list of barrels of asphaltum which was sent here for the contract and surveying the reports of the engineer's inspectors in charge regarding the weight of each barrel of asphaltum used. Should the charges made by the special committee of the Manoai Improvement Club to the effect that there was a discrepancy in the amount used and amount called for prove true, Chas. N. Arnold, chairman of the roads committee, said this morning that every effort would be made to learn who was guilty and the case would be turned over to the city and county attorney.

The discussion on the two reports on the purchasing agent's department will probably take place tomorrow night. The matter has laid on the table since the reports were filed and the board does not seem anxious to resurrect it.

The passing of the street laborers' payrolls, a number of minor resolutions and a report by the mayor on the action he has taken in the question of the Nuuanu water supply matter are also scheduled to come up before the meeting.

PRIME MINISTER OF SOUTH WALES DISCUSSES WAR

(Continued from page 1)

foodstuffs and other supplies, which she is ready to send to England and to other allies as soon as she gets the ships to send them in. These ships, he added, are now being built through a friendly agreement in Australian yards.

Much Wheat to Spare.

"We have the surplusage of three wheat crops in hand ready to ship in addition to having plenty for our own needs," the Australian Premier explained.

"Our farmers have all this potential wealth in the form of wheat and are unable to move it because of the lack of vessels. But the bankers are lending the farmers all the money they need on an equitable basis, with the grain as collateral, and so conditions are prosperous. There are many millions of bushels of this wheat."

The Premier was asked his opinion on the submarine menace, from the viewpoint of one who had returned within the last few days from England.

"There is a general feeling that the submarine menace is in hand," he said. "That is, it is on the high road to be ended. The situation is still serious, of course, but it is being remedied. America's contribution of fast powerful destroyers is much appreciated, and the destroyers of all the Allies are doing splendid work."

"I expected to find France and England very much in mourning and downhearted, but I was joyfully surprised to discover that such was not the case. They are all bearing up very bravely, and there is no dissent among the soldiers or people as to the necessity of winning the war at any or all costs."

The high cost of living is a problem in Australia as well as elsewhere. Premier Holman said, and means to control prices are being considered by the state.

The Premier has been away from New South Wales almost six months and spent much of his time in France. He was met at the steamer this morning by a delegation from the British Club, including its president, Fred Harrison, and Judge Clarence W. Ashford. Mrs. Walter E. Frear and a woman friend from Australia were others who greeted him and his secretary, Clifford H. Hay.

NEW SECRETARY AT THE BIJOU

The Monte Carter company opens up a brand new show at the Bijou theater tonight with Monte himself staging a breezy, hilarious, captivating role in "Izzy the Secretary." There will be new scenery, new and tasteful coloring effects, new designs in costumes and brand new songs and a brand new display for feminine pulchritude, or in other words, the dancing chicks, to shine forth resplendent in.

"Izzy" has kept Honolulu audiences laughing now for nearly a score of nights, yet they never seem to tire of his antics, his comedy, while his effervescent humor and the individual efforts of his co-stars are fast gaining new friends, while the dash and vivaciousness of the dainty, light tripping chorus is a source of delight to the theatergoers who have been glutted to their fill with film dreams.

Real life holds forth at the Bijou when Carter et al hold the boards. Monotony is driven to the background and the bright lights and the scintillating sparkling atmosphere of the mainland metropolis seems transported across the waters.

Esther Davis and Betty Buttrick have some surprises in store and the male singing trio will offer pleasing and harmonious selections that are bound to enrapture. Tonight the new show opens.

CURIO STORE IS ROBBED OF \$400

Forcing their way through a small window in the rear of J. A. Gonsalves' curio store, Fort and Pauahi streets, some time last night, burglars made off with jewelry and curios amounting to more than \$400. A cash register containing a large sum of money was untouched, the thieves being satisfied with carting off strings of beads, silver spoons and necklaces.

The thieves made their entry to the store through a small window opening onto the photographic dark room. The window is 11 inches square, and the detectives are looking for a small boy, who apparently is the only person who could possibly have gotten through the aperture. The burglars escaped through the rear door, opening it from the inside. Leaving Gonsalves' store they attempted to force the door of C. Nishikawa's store on Pauahi street. Several months ago thieves entered the Gonsalves store through the same small window. They were never captured.

LOCAL BANKS WAIVE EXCHANGE ON LIBERTY BONDS

At noon today, the total amount of money subscribed for the second Liberty loan reached \$120,000. This amount was turned in by 12 subscribers. Army reports will not be landed in until the end of the week, and no complete figures have yet been received regarding the result of the Boy Scout campaign Saturday. The total value of scout subscriptions turned in Saturday afternoon was over \$120,000.

The meeting of the sales committee of the Liberty Loan works has been postponed from tomorrow morning at 10:30 o'clock until Wednesday at the same hour. The meeting will be held in the Chamber of Commerce rooms. H. H. Walker of the Hawaiian Trust company has prepared detailed instructions for the bond salesmen, and these men are urged to secure copies of the printed matter before the meeting and thoroughly familiarize themselves with the contents. The salesmen will receive further instructions at the Wednesday meeting, at which representatives of the different banks and trust companies, and sugar plantations are urged to be in attendance.

J. L. Cockburn of Bishop & Company, chairman of the sales committee, has appointed a number of sub-committees, and these are under the direction of C. J. Heiser and A. N. Campbell. Mr. Heiser has charge of blocking the city out into districts, while Mr. Campbell has charge of authorizing agents to canvass these districts. Mr. Walker will receive the subscriptions and money, and will distribute these among the various banks and trust companies.

An announcement was made by the executive committee this morning which will mean a great saving to prospective purchasers of Liberty Bonds. Representatives of four of the banks stated that they were authorized to announce that no charge for exchange on bonds will be made by their firms. The exchange on the bonds costs \$3. This amount is saved the purchaser by the action of the four banks. The First National, The Bank of Hawaii, The Bank of Honolulu and Bishop & Company. In addition to this, the government has announced that no charge will be made for delivering the bonds, which means that the Honolulu purchaser will not have to pay insurance rates or war risk, which amounts to \$1.50. Altogether the purchaser of a Liberty Bond will now save \$4.50 on every \$1000 bond.

The installment plan was put into effect Saturday and met with great approval everywhere. Blanks were supplied to firms, both large and small, and these were given to the employees. The installment plan means that a man may buy a Liberty Bond by paying \$1 a week for fifty weeks. At the end of that time he is the owner of a \$50 bond.

A number of firms have formed "Liberty Bond clubs," whereby fifty employees draw for a Liberty Bond. The members hand themselves together and pay \$1 a week dues. At the end of every week a drawing is held, and the one drawing the lucky number gets a certificate entitling him to a \$50 bond. He must pay the rest of the dues, however, until the full fifty dollars is paid. The advantage is for the interest on the bond.

Robert Stever, general executive secretary, has evolved a better plan. Fifty members pay \$1 a week for a year instead of fifty weeks. At the end of the year each member will have a Liberty Bond, and there will be two \$50 bonds left over. A drawing will be held and the two lucky winners will receive a \$50 bond free.

HARBOR NOTES

The arrivals yesterday from the other islands were the Mikahala from Molokai and Maui and the Claudine from Maui.

Ice was supplied yesterday to many of the smaller fishing sampans which have been tied up in the harbor for the past few days, owing to a shortage in the frozen commodity. Because there is less demand for ice on Sunday than on week days, the smaller boats were able to fill their wells.

The Inter-Island steamer Kinai arrived from Kauai yesterday morning with a large number of passengers and an average cargo. Her freight consist of the following articles: Two autos, one motorcycle, 165 empty barrels, 123 bags bottles, seventy-five bags taro, thirty-nine cases broom, seven tons scrap iron and 181 packages sundries. Smooth seas and light winds were met on both the outward and inward trips.

Oriental advices state that the announcement has been officially made that the Nippon Yusen Kaisha will operate on the North Pacific route the liners Fushimi Maru and Katori Maru, ships of 23,120 and 19,100 tons displacement, respectively. Both in tonnage and in passenger accommodations these ships surpass anything that has yet floated across the Pacific under the Japanese flag. The Fushimi has passenger accommodations for 122 saloon, 60 second class and 178 third class passengers. These vessels will replace two mail steamships now operating in the North Pacific trade—the Yokohama Maru and the Shidzuoka Maru.

SPORT TOWNERS PROVE FINE MUD LARKS

The Second Town Team, captained by Harry Melim, opened its first season Saturday afternoon at Kam field with a grand splash. Kam field had its usual coating of mud and made feasible all the Towners' smoothest plays. I Co. of the 25th Regiment gave their opponents a game battle, but proved a poor match for the local boys who seemed to have had more experience playing together than the soldiers.

During the first quarter, when the ball was still dry, both teams played with a dash and it looked for a while as though there were going to be much ado with two teams in good shape. After a series of brilliant line blocks by Fredericks, which brought the Towners to I Co.'s 20-yard line, Camario delivered a beautiful forward pass to Rodriguez, who scampered over the line before the soldiers knew what had happened. Harry Melim decided the seven points without any trouble. However, in the few minutes following the goal the ball found itself on the makai end of the field, where the absence of sod, due to the baseball diamond, has made the stop that is the bane of every team that ever plays on Kam field. From that moment on the play was heavy and erratic. When a team once got in the muddy section it was impossible to do anything but slide.

For the remainder of the game the ball stayed to the center of the field, what little advantage of play there was being on the side of the Town Team. Harry Melim's team is sure to make a good impression in the future.

The Lineup:

Town Team—Andrade, l.e.; Paiku, l.t.; Gilliland, l.g.; Soares, c.; McTaggart, r.g.; A. Melim, r.t.; Rodriguez, r.e.; H. Melim, q.; Canario, l.h.b.; Leal, r.h.b.; Fredericks, l.b.; Co. I—Jackson, l.e.; Simons, l.t.; Thompson, l.g.; Brown, c.; Hill, r.g.; Jordan, r.t.; White, r.e.; Thomas, q.; McDavis, l.h.b.; Parham, r.h.b.; R. Jackson, l.b.

Referee, Glenn Jackson; umpire, Capt. Britton; timekeeper, D. Decker; line man, Sgt. J. A. Brush; time out, quarters, 8 minutes.

JAPANESE HIGH MEN WIN RELAY

Uncorking a desperate spurt in the last three miles Yoichi Inouye won the round-the-island relay race for the Japanese high school team, crossing the finish line amid the cheers and yells of several thousand Japanese assembled at Aala park 11 minutes past 7 o'clock last night. Kunitoshi Matsunoto finished second for the Young Men's Buddhist Association and Yoshi Iizuma won third place for the Japanese High School Alumni Association. The time of the winning relay team was 12 hours and 11 minutes for the 82 miles.

The start was made at 7 o'clock Sunday morning from the corner of King and Nuuanu streets and the route of the race lay through the Pail along the windward coast, through Schofield and down to Aala park. Ten men were in each team and relays were made at the Pail, Heela, Kaawa, Laie, Waialea, Haleiwa, Lihaleiwa, Waipahu and Aiea. The average distance covered by each man was 10 miles.

S. Awoki, manager of the Yokohama Specie Bank, donated a silver cup which was presented to the winning team by Japanese Consul Moroi.
